

Mid-level Web Developer

Synergy is looking to add a Web Developer with proven front-end capabilities to our Digital team. The Developer should be a free thinker with an eye for detail, capable of working independently or on a team on a variety of challenging projects.

REQUIREMENTS

- 5+ years working with Bootstrap, Foundation, or any other responsive / mobile first framework.
- Heavy Javascript (CoffeeScript, jQuery, Node.js, PhantomJS, etc)
- Exceptional front-end experience (HTML/CSS, Bootstrap, UX/UI), PHP
- Self-starter, self-motivated, and able to work a project from inception to completion with minimal supervision and oversight
- Highly organized and makes every effort to write clean, concise, well documented code
- Ability to quickly learn new technologies and adapt to/adopt them where needed
- Detail-oriented, possess a critical eye
- Excellent communication skills
- Ability to work from the office in Lombard (this is NOT a remote position)
